Motion

Made by Faiza Liban

Second by Chana R. Eisner

The Committee for Quality Education would like to request the Mayor and Commission continue to sustain current public school educational enhancements and support the newly prioritized educational enhancements for the private and charter schools. The amount reflected for the private and charter schools is estimated based upon current public school enhancement programs and may not be reflective of actual funding needs. The public, charter and private school representatives are united and committed to all improvements and enhancements for the educational needs of all Miami Beach children. These enhancements should only be an expansion and never a reduction of currently funded public school enhancement programs.

The Committee for Quality Education urges the Mayor and Commission to support the above request.

Motion Passage: Votes 15-0

Absent for Vote: Jonathan Rothman
