BUSINESS ENVIRONMENT

The Code Compliance Department is responsive to the needs of residents, homeowners, visitors, and business owners alike.

Over the past few years, the department has experienced an increase in workload as a result of the proliferation of illegal short-term/transient rental platforms. These increases include quality-of-life concerns such as noise, sanitation issues, and parking. The department has continued to experience increases in a number of construction-related complaints (e.g., noise complaints, hours of operation, and the unauthorized blocking of the public right of way). There continues to be new and amended laws and regulations related to the environment, including the ban on polystyrene products, plastic straws, and restrictions on the hours of operations of packaged liquor establishments contributing to the department's workload.

Florida Senate Bill 60 effectively prohibits Miami Beach Code Officers from initiating investigations or enforcement proceedings of potential violations of codes and ordinances based on anonymous complaints. A person reporting a potential violation must now provide their name and address before an investigation or enforcement proceeding occurs. This change has not impacted Code Compliance conducting proactive site inspections and investigations to ensure compliance is achieved.

The Code Compliance Department collaborates with other City functional areas, including the Building Department, Tourism and Culture, Economic Development, the Police Department, Environment and Sustainability, Office of Marketing and Communications, Office of Housing and Community Services, Finance, Planning, Parking, Parks and Recreation, the Fire Department, and Public Works, as well as the City Attorney's Office to identify solutions for our community.
